One of the key things to remember about Jamaica, is that we are one of the most diverse destinations in the Caribbean. Our history of hospitality over these many years, demonstrates that we are able to cater to various categories of travelers, from the young, the mature, to the young at heart! And one of those special segments of the travel landscape is family travel. Kids and families are not just welcomed in Jamaica, they are celebrated!

Many of our resorts have family suites or adjoining rooms, which cater specifically to families travelling together and some of these suites accommodate up to five persons, ideal for a family with three kids. Some resorts also have a configuration on their adjoining rooms, which allows the family to close-off a central entrance door and then have a free flow between the two adjoining rooms on the inside. There are also lots of villas and cottages, which are great for family travel too. Many of these villas come with a full complement of staff including cook, housekeeper, butler and gardener; all available to cater to your family's every need.

Nanny services may be arranged as well for families that need it. In fact, there are resorts which cater to families in such a big way; they even have complimentary on-property daytime nanny service! Of course, surcharges apply for after-hours care. Parents can go about

enjoying their vacation, knowing that their kids are in good hands and a dedicated Nanny is making sure the kids have a great time too!

A family vacation is a great time to connect and bond but kids often want to have their own away time too... to do kids stuff!

And there is no shortage of that in Jamaica, whether on or off the resorts! Many of our resorts have a kaleidoscope of activities for your kids to partake in and enjoy! There is a plethora of great beaches; waterparks; video gaming lounges; rock-climbing parks; skating rinks - even ice skating rinks! Yes, there are synthetic ice-skating rinks in Jamaica! No Zambonis though!

There are also many off-property kids and family-friendly activities, paced for every member of the family. Garden tours, waterfall climbs; petting zoos; marine sanctuary attractions; plantation jitney tours and so much more. There are over 175 licensed attractions in Jamaica... more than any other single Caribbean Island!

And it doesn't matter what age your kids are, there is an activity and an attentive care team available for them; from toddlers, infants to teenagers. That is the kind of hospitality Jamaica is known for. We cater to all our travellers, from your tiny bundle of joy through to senior family members, making your family get-away the unique and memorable occasion it ought to be. So when next you are thinking of a family holiday, remember that Jamaica has all you need, to make it an enjoyable and memorable escape!
