

# Mystic Mountain – Jamaica’s rainforest adventure

**A** MUST on the list of places to explore and activities to enjoy in Jamaica, the eco-friendly Mystic Mountain, 2010 Tourism Excellence award-winner for Ocho Rios attractions, is an unforgettable rainforest adventure for everyone in your family. And for the Heroes holiday weekend, you could share this unforgettable experience for a special low price as part of The Gleaner’s Stay Local promotion.

A trip to Mystic Mountain in Ocho Rios, St Ann, could take you towering as much as 700 feet above the rainforest above the picturesque shoreline, affording you a captivating bird’s-eye view of the town, cruise-ship pier and turquoise waters as far away as St Mary. If you prefer, you could choose to zip line among the trees or bobsled down the mountain meandering in-between shrubs and trees.

The rainforest tour, which is spread over 100 acres of lush lands and rated among the best experiences to have in Jamaica, provides you with an up-close glimpse and thrilling experience in a Jamaican rainforest near the beach. Plus, it gives you the chance to explore your adventurous side on one of four activities, including the SkyExplorer, the Bobsled Ride, the Canopy Zip Line and the unique Mystic Waterslide.

## RAINFOREST SKY EXPLORER

Positioned prominently at the park’s coast road entrance, this state-of-the-art chairlift soars above the treetops on a breathtaking ride through the heart of the tropical seaside forest canopy. The ascent on Sky Explorer skims the top of the canopy, providing sensational views of the sparkling sea and the emerald richness of the tropical

treetops to arrive at the centrepiece of the attraction, the peak of Mystic Mountain. The return ride on Sky Explorer carries riders just below the treetops yet high above the forest floor, affording an unparalleled scope of the tropical forest as well as prime viewing of the rich flora and fauna.

## RAINFOREST BOBSLED JAMAICA

The signature attraction of Mystic Mountain is the Bobsled Ride. Custom-designed bobsleds evoking the glory of the Jamaican Olympic bobsled team travels along stainless-steel rails on a 1,000-metre gravity-driven ride through the forest. Imagine a bobsled roller coaster through a tropical forest – only in Jamaica!

## RAINFOREST ZIP-LINE TRANOPY TOUR

A series of tree-to-tree platforms sends riders gliding through the coastal forest on this customised zip-line canopy tour. Nothing rivals the zip line for full-forest interactivity. The guided tour covers the virgin areas of the mountain, flying through the canopy via a zip-line along a series of interconnected tree and land-based platforms. The last platform is at the mid-station of Rainforest Sky Explorer, which returns zip-line riders to the base area and the park entrance via the Sky Explorer chairlift.
