INTRODUCTION

The statistics contained in this publication cover visitor arrivals, accommodation utilization, and visitor expenditure.

Tourism data from all the Embarkation/Disembarkation (E/D) Cards were entered in a computer system located at the Corporate Head Office, Jamaica Tourist Board, Kingston. The data on stopovers, including demographics, were derived from this source.

Jamaican nationals' resident abroad and who visited Jamaica are included in the visitor arrival figures. Jamaica has conformed with "**Recommendations on Tourism Statistics**" prepared by the World Tourism Organization and adopted by the United Nations Statistical Commission (UNSC) in 1993.

These recommendations state that **nationals who reside abroad and who return as visitors should be included in Tourism Statistics**. The Jamaica Tourist Board has been publishing visitor arrival figures on Non-Resident Jamaicans since 1989.

Fly-cruise passengers i.e. Cruise Passengers flying into the island to meet the cruise ship are not included in tourist arrival figures, unless they spend at least one night in land-based accommodation.

Data on cruise ship arrivals were obtained from the ships' manifests.

Visitor accommodation figures such as hotel occupancy rates, room capacity, employment in accommodation, were collected directly from the establishments. Estimates were made, using E/D card information, for some non-compliant properties.

Information on visitor expenditure was obtained from an Exit survey conducted among departing visitors at both international airports and at the cruise ship piers.

The Research & Market Intelligence Unit of the Marketing Department is thankful for all the assistance and support given by the other tourism entities and their staff who provided the data and/or material for this issue.

Acknowledgments and appreciations are extended to the Data Entry staff and Research Assistants who assisted with the data collection process.

STOPOVERS

Total stopover arrivals in 2015 exceeded the 2 millionth marker to reach a record of 2,123,042, which was 2.1% above the 2,080,181 arrivals recorded in 2014. This figure represents 42,861 more stopovers than in 2014. In the first quarter of 2015, Jamaica recorded a 0.2% negative growth in stopover arrivals over the 2013 figures. During the second quarter this growth rose to 3.1%. In the third quarter this growth was 5.0%. In the last and final quarter of 2015, this strong growth continued and ended with a growth of 7.0%. This growth was led by the increase of 9.8% in arrivals during the month of October.

Tourist arrivals in 2015 outperformed those in each quarter of 2012, with growth rates of -2.1%, 4.5%, 6.8% and 15.9%, for quarters 1 to 4, in that order.

The main factors that may be identified as having had an impact on Jamaica's stopover arrivals during 2015 were as follows:

- Maintaining high visibility in the traditional market places of North America, Latin America and Europe through an integrated promotional and communications programme.
- The advertising campaign “Home of All Right” continued to be a major support for enticing visitors with the message that Jamaica is more than a vacation destination; instead it is a brand that feeds a greater world need. The campaign was used in all opportunities to support the proposition that Jamaica is a place to visit and be seen.
- Jamaica's destination website continued to be used as the primary “call to action” for advertisements and promotion. The website is considered to be a repository of destination activities, accommodations, and the unique elements that make the island appealing to the traveler, but also the trusted source of information about all things Jamaican. In 2015, the Jamaica Tourist Board focused on enhancing the content on www.visitjamaica.com paying special emphasis on sports and culture, as well as utilizing the new tagline “Jamaica: Home of All Right”.
- Representation at major trade events in emerging markets such as Brazil, other Latin American Markets, Continental Europe and China.

- Increased airlift and Visa facilitation for nationals were strategies used to develop and increase market share from these emerging markets.
- A number of hotels that changed ownership and management in 2013 re-opened, resulting in the availability of more rooms in 2015.
- On-island Travel Agents' Familiarization tours with reps from the USA, Canada, Europe and Latin America, continued to educate travel agents on the Jamaican Tourism Product..

Destination Jamaica continues to offer a diverse product of very high quality to its visitors, through its expansive and inclusive nature in 2015. The wide range of hotels, attractions and activities has allowed Jamaica to deliver on visitor expectations, unequalled visitor experiences and provide value for money.
