

JAMAICA ENTRY MEASURES EXTENDED THROUGH APRIL 2021

Dear Valued Partners,

The Government of Jamaica has announced that current guidelines will remain in place for an extended period through to **2021 April 15**. This extended timeline will allow for a more seamless experience as visitors plan their travel to Jamaica and is part of our continued effort to minimize the spread of COVID-19, while protecting the lives of our citizens and visitors.

In addition, a number of entities have been added to the approved list of compliant attractions, even though they are not located within the boundaries of the resilient Corridor. These attractions may be visited using transportation licensed under the JTB Act. The following attractions have now been added to the approved list:
