

JAMAICA CONTINUES TO WELCOME VISITORS

Dear Valued Partners,

Jamaica has reported two imported cases of the Coronavirus (COVID-19), but in the wake of this global outbreak, Jamaica has taken a number of preventative and proactive measures to keep our residents and your clients safe.

- Jamaica's Ministry of Health and Wellness has imposed travel restrictions to include eight countries in efforts to control the spread of the coronavirus: China, Italy, South Korea, Singapore, Iran, Spain, France and Germany. Travellers from these countries who do not have permanent residency or marriage exemption in Jamaica will not be landed on arrival to the island.
- Passengers will be screened at all the international gateways to Jamaica by heat sensing scanners, prior to entering the Immigration Hall.
- Quarantine facilities have been identified and isolation facilities are now at each of the island's public hospitals.
- You are invited to view the full list of destination protocols at www.jtbonline.org

In the destination we are focused on prevention management, as we believe we can and will overcome this public health threat.
